

## **Estimator**

NorthAmCon, Inc. in Alpena, MI is seeking to add an Estimator to their team. NorthAmCon designs and manufactures Motor Driven Roller and Flat Motor Driven Roller 24-volt power driven technologies to meet material handling needs of their customers. An Estimator is expected to prepare pricing by identifying labor, purchase parts, material and time requirements for various proposals and requests, ensuring profitability at a pre-determined margin. Preference will be given to candidates with experience in manufacturing, sales or estimating, those who have proficiency with Microsoft Office Products, and who are able to quickly learn new software.

Additionally, ideal candidates will:

- Be eager and able to learn quickly
- Have exceptional time management skills, consistently meeting or exceeding deadlines
- Maintain a high level of accuracy in estimate details
- Communicate effectively in all manners of communication, with internal teams and external vendors
- Understand basic manufacturing processes
- Understand the technical/mechanical theory, design and application of the various technologies utilized in the design of equipment by NorthAmCon

If hired, candidates can look forward to a robust compensation and benefits package including:

- Competitive pay
- Health insurance benefit and HSA
- Flexible paid time off and holidays
- 401(k) with employer matching
- Discretionary bonuses

To apply, please submit a resume to [jobs@358-jobs.com](mailto:jobs@358-jobs.com).
